

Worm Drive Hose Clamps

Add to your NDS order & save on freight

Superior Longevity

100% stainless steel construction

Added Strength

4 piece design includes underside plate
Conical arched perforated slots

Smoother Worm Drive

Buttressed threads & more threads per screw

SUPERIOR ENGINEERING

Applications:

Primarily use to tighten around and secure pliable (soft) hose or tube

Plumbing: Connections for dishwashers, garbage disposals, water softeners, air conditioning

Irrigation: Secure poly tubing, stabilize risers to stake

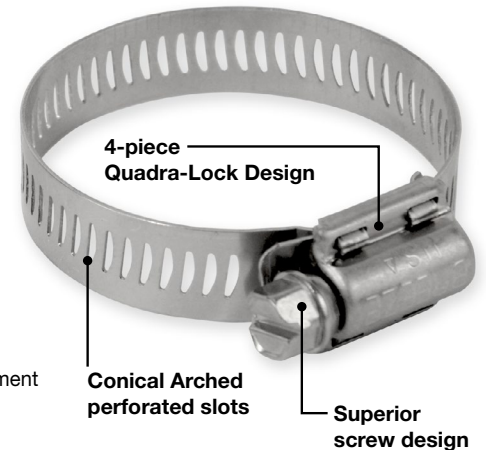

Home: Clamping various items together (antennas, automotive, poles, various DIY clamping)

Competitive Advantages:

- All Stainless steel, Screw is 410SS, clamp/housing 300SS (many competitors use plated components)
- 4 piece design including underside plate for added strength (others use 3 piece design)

Clamp Specifications:

- Heavy duty 4-piece Quadra-Lock design provides strength and stability
- Conical Arched perforated slots add more steel between perforations for added strength & smoother engagement
- All components are stainless steel including 300 series bands
- Superior screw design includes buttressed threads and more threads per screw
- Exceeds all SAE requirements including standard J1508 Type "F"
